VS Code • Docker • Postman
Facebook/Google Ads

PERSONAL QUALITIES

Adaptability • Critical Thinking
Problem Solving • Decision Making
Attention to Detail • Teamwork
Time Management Skills

LANGUAGES

Fluent

- Korean
- English

SUMMARY

Full Stack Developer that is motivated and willing to learn that is capable. I am proficient in React, Node JS, and JavaScript. I am looking for a long-term position as a Full Stack Developer.

PROJECTS

CRM TICKET SYSTEM | Live Version | View Code on Github

- Full stack CRM ticket system, **MERN** stack **CRUD** app, styled with **tailwind css**, server side state management using **redux** and making **API calls** with **Axios**.

- This app is currently **hosted** on heroku free plan on a custom domain and is **fully functional**.

PBTECH PROJECT | View Code on Github

- **MERN** stack app, pulls data from **MongoDB** to render the selection on the modal. I utilised the **quicksort algorithm** to sort items, and the filter method is used with the slider.

- We had **daily scrums** and utilised the **prototype** design practice during this **collaboration**, and **Tailwind CSS** was used to style the app and **Docker** to containerize the stack at Mission Ready HQ.

TURNERS INSURANCE APP | Live Version | View Code on Github

- This App was created using the designs of **UX designers**, and we used **Typescript, CI/CD pipeline**, and **Azure technologies** to create a **live app** during the **collaboration** so that the **team** could see the App **in action**.

- I was in charge of developing the homepage. This was my first experience working with UX designers, which I quite enjoyed, and practised the **agile methodology** at Mission Ready HQ.

PORTFOLIO WEBSITE | Live Version | View Code on Github

- My Portfolio Website has been created using **React JS** and is hosted on Netlify on a custom domain, some of the features include **smooth scrolling** to sections via the **Navbar** and **dark & light** themes with **mobile** and **desktop** view.

HOBBIES

- Fitness
- Gaming
- Basketball

EXPERIENCE

PRIOR STORE | Buyer/Ads Manager

Mar 2016 – Jan 2022 | Auk, NZ

- Effectively applied **Google/Facebook** ads and tracking.
- Managed and coordinated relationships with multiple suppliers to acquire stock.
- Ads and tracking were used effectively, and sales due to ads increased by an average of 20% year on year.
