SUMMARY

Full Stack Developer who is motivated and willing to learn that is capable. I am proficient in JavaScript, Node JS, and React. I am looking for a full-time position as a Full Stack Developer.

PROJECTS

CRM TICKET SYSTEM | See It In Action | View Code on GitHub

- **Solo Project** where I utilised the **MERN** stack **CRUD** app, styled with **tailwind css**, global state management through **redux** and making **API calls** with **Axios**.

- This app is currently **hosted** on Heroku free plan on a custom domain and is **fully functional**, some of the **features** include **client sign in and sign up**, ticket filter, **create new and update existing tickets**, and **admin portal** for handling. tickets.

PORTFOLIO WEBSITE | See It In Action | View Code on GitHub

- **Solo project** where I utilised **React JS** and Tailwind CSS, This website is hosted on Netlify on a custom domain, and some of the features include **smooth scrolling** to sections via the **Navbar** and **dark & light** themes with **mobile** and **desktop** view.

PBTECH PROJECT | View Code on GitHub

- **Group project** created at **Mission Ready HQ** by utilising the **MERN** stack app, pulls data from **MongoDB** to render the selection on the modal. I was **responsible** for the **server side** and the **modals** and utilised the **quicksort algorithm** to sort items, and the filter method is used with the slider.

- I had **daily scrums** and utilised the **prototype** design practice during this **collaboration**, and **Tailwind CSS** was used to style the app and **Docker** to containerize the stack.

TURNERS INSURANCE APP | See It In Action | View Code on GitHub

- **Group project** created at **Mission Ready HQ** which was created using the designs of **UX designers**, and I used **Typescript**, **Azure DevOps** to deploy the **live app** during the **collaboration**.

- I was **responsible** for developing the **homepage** and this was my first experience working with UX designers, which I quite enjoyed, and practised the **agile methodology**.

HOBBIES

- Fitness
- Gaming
- Basketball

EXPERIENCE

REVIVED DESIGN | Intern Software Engineer

Sep 2022 – Current | Auk, NZ

- Learnt a new language (**Flutter**).
- **Daily scrums** and further sessions to **find and discuss on possible solutions** with the mentor & owner.
- Use of **linear.app** to raise **issues** and **suggest improvements**.
- Produced **test cases** and wrote **unit** & **widget tests**.
- Set up and documentation of **CI/CD Pipeline** through **GitHub actions** for **Android** & **iOS app**.

PRIOR STORE | Buyer/Ads Manager

Mar 2016 – Jan 2022 | Auk, NZ

- Experience with **Liquid** & **JavaScript** when customising Shopify website
- Managed and coordinated relationships with multiple suppliers to acquire stock.
- Ads and tracking were used effectively, and sales due to ads increased by an average of 20% year on year.
